

# DEMONSTRATION AGV

Check our AGV by YouTube site! The AGV are desing and produced by *HIROSHIMA PS CO., LTD.*

① See how AGV runs while waiting for the automatic door to open and close, and running the designated route by added program.

② The AGV runs after confirming automatic door opens by adding the original program and sensor.

④ See how AGV transport container which loaded to the planned drop location.

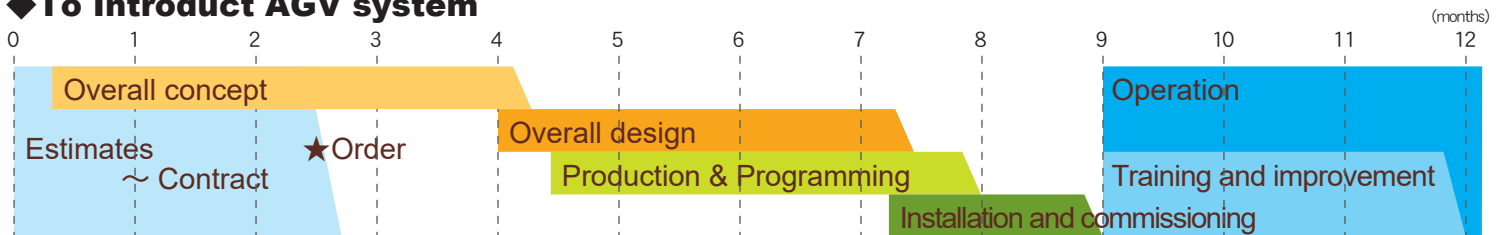

③ You can see that AGV recognizes opening and closing of automatic doors.

⑤ Based on the situation from ① to ④, we have actually installed a transport container and transported goods and confirmed the operation of AGV transport. We were able to drop the transport container at the planned location.

## ◆To Introduce AGV system

※The actual schedule will depends on the meeting and specifications.
